GENERAL INFORMATION

A. GENERAL INFORMATION OF THE SERVICES

A. GENERAL INFORMATION OF THE SERVICES

KEPCO E&C has developed a new NPP design of APR1000 to comply with the safety requirements of recent IAEA, WENRA and EUR Rev. E to provide the most competitive NPP in the overseas market including Europe. KEPCO E&C is responsible for the design of the APR1000 which also applies for the EUR design assessment.

Although most of the design concepts of the APR1000 have already been completed, there are still several areas that need further development and/or independent peer review by a third party because those areas include new evolutionary design concepts or European region-specific design requirements.

The purpose of this framework contract is to assist KEPCO E&C to complete the APR1000 standard design which is planned to finish by Dec. 31, 2023.
